

Tucker + Dani Honeymoon Planning Transfer Packet

Purpose

This file transfers the full working context from the current honeymoon-planning chat into a format that can be uploaded to Claude or another AI. It includes the couple's stated preferences, the destination shortlist, resort comparison, researched pricing snapshot, flight logic, Amex points strategy, itinerary, booking sequence, honeymoon requests, gluten-free notes, and a chronological decision log.

IMPORTANT: Flight schedules, award inventory, resort room prices, promotions, and excursion pricing are time-sensitive. The pricing and schedule figures below are a research snapshot from late September / October 1, 2026 and should be rechecked immediately before purchase.

1. Couple and trip brief

Travelers: Tucker and Dani.

Occasion: Honeymoon immediately after their courthouse wedding.

Wedding: Friday morning, October 16, 2026, at the courthouse in Delray Beach, Florida.

Preferred honeymoon departure: Early Saturday morning, October 17, 2026.

Preferred airports: West Palm Beach (PBI) first if practical; Fort Lauderdale (FLL) is fully acceptable and currently makes more sense for Cancun because of nonstop service.

Trip length: Originally 5 days / 4 nights. After pricing and itinerary planning, 5 nights was preferred because the added resort day is worth the incremental cost.

Current target dates: Saturday, October 17 through Thursday, October 22, 2026. Five nights.

Budget: Roughly \$2,000-\$4,000 total for two, with flexibility if Amex Membership Rewards points offset airfare and/or if a much better honeymoon room is available.

Desired experience:

- Tropical, warm-weather, five-star resort destination.
- Adults-only preferred.
- All-inclusive strongly preferred.
- Beautiful beach and pools.
- Strong food program with clear gluten-free handling for Dani.
- Good coffee.
- Tennis courts are a plus.
- Memorable excursions and adventure, not five days of only sitting at a pool.
- Honeymoon should feel like a once-in-a-lifetime trip.
- Room upgrades such as swim-up or rooftop private pool are valuable when the price difference is reasonable.

- No longer need First Class flights. Schedule and nonstop convenience matter more.

2. Destination shortlist that was considered

The first strong shortlist included:

1. Playa Mujeres, Mexico - Excellence Playa Mujeres

Strengths: adults-only, all-inclusive, strong gluten-free reviews, seven pools, tennis/pickleball, good food, easy Cancun access, Xenotes excursion, relatively short flight from South Florida.

2. Cap Cana, Dominican Republic - Secrets Cap Cana

Strengths: adults-only, all-inclusive, Juanillo Beach, strong resort quality, Scape Park nearby for zip lines, caves, Blue Hole, buggies, and adventure.

3. Aruba - Renaissance Wind Creek Aruba Resort

Strengths: outside the main hurricane belt, more dependable October weather, private Renaissance Island, Flamingo Beach, island exploration.

4. Playa Mujeres, Mexico - ATELIER Playa Mujeres

Strengths: newer design, food-focused, adults-only all-inclusive, modern architecture, possible Amex Fine Hotels + Resorts relevance.

The couple chose Playa Mujeres, Mexico as the destination direction.

3. Original resort choice: Excellence Playa Mujeres

The original plan centered on Excellence Playa Mujeres because it checked the most boxes at once:

- Adults-only.
- All-inclusive.
- White-sand beach.
- Multiple pools.
- Tennis and pickleball.
- Water sports.
- Large restaurant selection.
- Strong current gluten-free guest feedback.
- Easy access to excursions from Cancun / Playa Mujeres.

Initial room targets:

- Junior Swim-Up Suite.

- Two-Story Rooftop Terrace Suite with private pool if the premium was modest.
- Excellence Club considered, but room quality itself was prioritized over Club status.

4. Updated resort choice: Excellence Coral Playa Mujeres

After comparing Excellence Coral Playa Mujeres with the original Excellence Playa Mujeres, the working recommendation moved to Coral.

Why Coral became the preferred property:

- Opened in 2025 and has the newer design language.
- More contemporary and architectural feel.
- Large base suites, around 807 sq ft for Junior Swim-Up categories.
- More private-pool and honeymoon-style room configurations.
- Extensive dining program with about 16 dining concepts and multiple bars.
- Tennis, pickleball, kayaking, paddleboarding, snorkeling equipment, sailing, archery, beach volleyball, yoga, and fitness center.
- Miile Spa.
- Same general Playa Mujeres area, so the excursion plan does not materially change.
- Current researched base pricing for Oct. 17-22 was slightly lower than the original Excellence Playa Mujeres.

The original Excellence Playa Mujeres remains a strong alternative because it has a longer operating record, more mature landscaping, a very established reputation, and large review volume. The main reason Coral moved ahead was newer design plus favorable current pricing.

5. Coral vs original Excellence pricing snapshot

Research snapshot for Saturday Oct. 17 through Thursday Oct. 22, 2026, two adults, five nights:

Excellence Coral Playa Mujeres lowest available all-inclusive pricing found in public search results:

- Oct. 17: about \$500
- Oct. 18: about \$500
- Oct. 19: about \$500
- Oct. 20: about \$486
- Oct. 21: about \$500
- Approximate five-night base total: \$2,484, taxes/fees as shown by the source.

Original Excellence Playa Mujeres for the same five nights:

- Approximate five-night base total: \$2,537.

Working difference:

- Coral was about \$53 cheaper at the base-rate level in the researched snapshot.

Important: These are not guaranteed direct-booking Rewards checkout prices and not guaranteed room-upgrade prices. They are useful benchmark numbers for deciding whether a direct resort quote is good.

6. Room strategy at Excellence Coral Playa Mujeres

The desired order of preference is:

1. Two-Story Rooftop Terrace Suite with Private Pool.

This is the honeymoon target if pricing is reasonable. Approximate size referenced in research: 1,600 sq ft. Private rooftop terrace and private pool.

2. Junior Swim-Up Suite Pool View.

Approximate size referenced in research: 807 sq ft. Direct swim-up access and a private garden/terrace feel. Strong value if rooftop pricing jumps too high.

3. Excellence Club private-pool or swim-up configurations.

Consider when the pricing premium is reasonable or when it includes a much better room rather than simply Club access.

Working price thresholds created during planning:

- Base Junior Suite: around \$2,484-\$2,550 for five nights.
- Junior Swim-Up: buy target at or below about \$2,700 for five nights.
- Two-Story Rooftop Terrace with Private Pool: strong buy at or below about \$2,850 for five nights.
- Excellence Club Private Pool: consider at or below about \$3,000.
- Excellence Club Swim-Up + Private Pool: consider at or below about \$3,150.
- Very high-end beachfront honeymoon rooftop/private-pool categories: only if total package still makes sense after Amex points.

These thresholds are decision aids, not verified guaranteed offers.

7. Resort direct-booking strategy

Preferred booking method: Book Coral directly through The Excellence Collection if the direct rate is close to the public benchmark.

Reasons:

- Current official promotion during the target stay window advertised up to 40% off for qualifying bookings.
- Direct bookings of sufficient length may include private round-trip transfer between Cancun International Airport and the resort.
- Eligible direct rates may include free cancellation.
- Room-location selection may be available.
- Excellence Rewards member rates may be lower.

Recommended action:

- Search Oct. 17-22 for two adults.
- Join The Excellence Collection Rewards if not already a member.
- Compare the blue Rewards rate across Junior Swim-Up and Two-Story Rooftop Terrace with Private Pool.
- Favor the rooftop private-pool room if it is within roughly \$150-\$300 total of the swim-up price.
- If the rooftop premium is much larger, choose the swim-up and keep the cash for activities, photos, tips, or spa.

8. Honeymoon package and what to tell the resort

Tucker and Dani will be married Friday morning, October 16, 2026, at the courthouse in Delray Beach, Florida, and travel to the resort the following morning.

The resort should be told they are newly married and traveling specifically for their honeymoon.

Suggested reservation note:

We will be getting married the morning of Friday, October 16, 2026, at the courthouse in Delray Beach, Florida, and will be traveling to Excellence Coral Playa Mujeres the following morning for our honeymoon. We would like to request any complimentary honeymoon benefits available for our stay. We will bring a copy of our marriage certificate. One guest also requires gluten-free meals, so please add that dietary requirement to our reservation. If possible, we would appreciate a quiet, romantic room location and any honeymoon touches you may be able to arrange for our arrival. Thank you.

The earlier Excellence honeymoon package research referenced possible benefits such as:

- Sparkling wine.
- Fruit.
- Rose petals / romantic turndown.
- Champagne breakfast in bed.
- Romantic dinner.
- Discounts on spa or photography.

Exact 2026 Coral eligibility and inclusions should be reconfirmed with the resort before purchase.

Important paperwork:

- Bring a copy of the marriage certificate or whatever documentation the resort requires.
- Because the wedding is the morning before departure, confirm exactly what document Excellence accepts and whether a courthouse-issued same-day certified copy is sufficient.

9. Flight strategy

First Class is no longer required.

Primary goal: Short, easy, nonstop travel after the wedding weekend.

PBI:

- Preferred geographically, but no nonstop PBI-CUN schedule was identified in the research.
- Typical connections materially increase total travel time.
- Because this is a five-night honeymoon, the connection is not worth it unless PBI pricing or schedule changes significantly.

FLL:

- Preferred working airport because nonstop JetBlue service to Cancun was identified.
- Travel time is under two hours nonstop.

Current target outbound:

Saturday, October 17, 2026.

JetBlue FLL to CUN.

Preferred researched flight: around 10:07 AM departure from FLL, arriving Cancun around 11:03 AM local.

Backup researched option: around 12:00 PM departure from FLL, arriving around 12:56 PM local.

Current target return:

Thursday, October 22, 2026.

Cancun to FLL.

Preferred researched option: around 2:01 PM departure so the couple gets breakfast, pool/beach time, and early lunch before leaving.

Earlier researched option: around 12:14 PM departure.

Flight schedules must be rechecked before booking because airline schedules can change.

10. Flight pricing snapshot

Working budget from the research:

- Round-trip economy for two on FLL-CUN: approximately \$970-\$1,046 total in the specific researched date window.
- One shared checked suitcase was budgeted around \$90 round trip if each direction is prepaid and the fee structure remains similar.
- Two checked bags would increase the budget.
- FLL long-term parking was budgeted at about \$120 for the trip.

Earlier generic October fare searches showed lower headline prices, but the package budget intentionally used the higher date-specific working range rather than the cheapest generic fare.

11. Amex Membership Rewards strategy

The couple has Amex Membership Rewards points.

Current working approach:

- Do not automatically transfer Amex points to JetBlue.
- The standard transfer ratio referenced during research was 250 Membership Rewards -> 200 TrueBlue points, which is weaker than 1:1 and may also involve an excise-tax offset fee for U.S. airline transfers.
- Compare the cash fare directly with JetBlue and the Pay With Points price through Amex Travel.
- A simple working valuation used in the chat was 1 cent per Membership Rewards point through Amex Travel for flights.

Illustrative cash reduction if airfare is about \$1,046 total:

- 25,000 MR points -> about \$250 toward flights -> about \$796 cash airfare.
- 50,000 points -> about \$500 -> about \$546 cash airfare.
- 75,000 points -> about \$750 -> about \$296 cash airfare.
- 100,000 points -> about \$1,000 -> about \$46 cash airfare.

The couple no longer needs premium cabin seats, so the best use of points may simply be reducing cash outlay on the nonstop FLL-CUN itinerary.

Claude should verify the exact user's Amex card, Membership Rewards balance, any current Amex Travel promotions, and actual redemption value before advising a transfer or redemption.

12. Excursion plan: Xenotes by Xcaret

Primary adventure day: Xenotes by Xcaret.

Why it was chosen:

- Fits the request for an actual memorable adventure.
- Combines multiple cenote environments.
- Activities discussed included rappelling, zip lines, kayaking, swimming, cavern exploration, and cliff-jump style elements depending on the operating tour.
- Can be done while staying at either Excellence Playa Mujeres or Excellence Coral Playa Mujeres.

Current target day:

Monday, October 19, 2026.

Pricing snapshot:

- About \$149.99 per person regular price in the research.
- About \$300 total for two before any discount.
- An advance-purchase discount of around 15% was discussed if the booking met Xcaret's lead-time requirement.
- Discounted working total used in one estimate: about \$255 for two.

Gluten-free request for excursion:**Suggested wording:**

One guest requires a gluten-free meal due to a gluten allergy. Please note this on the reservation and arrange a gluten-free picnic option.

The prior research indicated Xcaret asks guests with food allergies to contact customer service in advance so an alternative meal can be prepared.

13. Other adventures that remain available from Coral

Switching from the original Excellence Playa Mujeres to Excellence Coral Playa Mujeres does not remove the adventure options because the resorts are in the same Playa Mujeres / Costa Mujeres area.

Other options discussed:

- Isla Mujeres catamaran.
- Snorkeling.
- Private yacht.
- Chichen Itza.
- ATV / buggy tours.
- Additional cenote tours.
- Golf.
- Fishing.
- Scuba diving.

- Spa day.
- Resort tennis and pickleball.

The current itinerary only needs one major off-property adventure. Xenotes remains the main recommendation so the couple still has enough time to enjoy the five-star resort they are paying for.

14. Five-night itinerary

Friday, Oct. 16 - Wedding day in Delray

- Courthouse wedding in Delray Beach in the morning.
- Handle marriage paperwork and obtain whatever copy/documentation is needed for the honeymoon package.
- Stay local that night rather than rushing to the airport.
- Wedding dinner locally / spend time with family.
- Finish packing.
- Go to bed early enough for Saturday travel.

Saturday, Oct. 17 - Fly to Cancun + first resort night

- Drive to FLL early.
- Target the earlier nonstop JetBlue flight, around 10:07 AM if still operating.
- Arrive CUN around 11 AM local.
- Use the included private airport transfer if the direct Excellence booking qualifies.
- Expected resort arrival around 12:30-1:30 PM depending on immigration, bags, and road traffic.
- Lunch, explore property, room check-in when ready.
- Pool / private pool / swim-up room / beach.
- First honeymoon dinner: Chez Isabelle was originally chosen on the prior Excellence plan. At Coral, verify the current equivalent restaurant lineup and make the first dinner one of the more romantic fine-dining options.

Sunday, Oct. 18 - Resort day

- Sleep in.
- Breakfast and good coffee.
- Tennis together in the late morning.
- Beach and pool.
- Optional hydrotherapy or couples spa.
- Use the resort, not an excursion.
- Dinner target: a seafood / lobster-focused restaurant if the Coral lineup offers the same or equivalent concept.

Monday, Oct. 19 - Xenotes adventure

- Early breakfast.
- Xenotes tour with rappelling, zip line, kayaking, swimming, and cenotes.

- Gluten-free meal arranged in advance for Dani.
- Return late afternoon.
- Shower and relax.
- Dinner: teppanyaki / Spice equivalent if available at Coral. Reserve any experience that requires advance booking early in the stay.

Tuesday, Oct. 20 - Water + food day

- Slow breakfast.
- Paddleboard or kayak.
- Beach.
- Pool / private pool.
- Drinks and coffee.
- Sunset photos around the property.
- Dinner: Raices was specifically highlighted at Coral because it offers a more destination-style Mexican dining experience and has been described as having a modern Mexican tasting-menu concept. Verify current menu and reservation requirements.

Wednesday, Oct. 21 - Full honeymoon day

- Champagne breakfast in bed if the honeymoon package includes it.
- No major excursion.
- Private pool / swim-up time.
- Beach.
- Optional spa or hydrotherapy.
- Schedule a professional resort photo session around golden hour if pricing is reasonable and the honeymoon discount applies.
- Romantic honeymoon dinner that night if included or available.

Thursday, Oct. 22 - Final morning + fly home

- Breakfast and coffee.
- Final swim / pool / beach.
- Early lunch.
- Check out.
- Private resort transfer to CUN if included.
- Target the later nonstop CUN-FLL flight around 2:01 PM if it remains available.
- Arrive back in South Florida late afternoon / early evening.

15. Dinner planning notes

Because the plan moved from the original Excellence Playa Mujeres to Coral, restaurant names and reservation rules should be rechecked against Coral's current 2026 dining list.

Dining concepts specifically discussed in the thread:

- Chez Isabelle - romantic French option on the original Excellence plan.
- Lobster House - seafood/lobster concept on the original Excellence plan.
- Agave - Mexican option on the original Excellence plan.
- Spice / Teppanyaki - interactive dinner, usually worth reserving early if reservations are required.
- Raices - Coral restaurant highlighted for a modern Mexican experience and tasting-menu style concept.
- Romantic honeymoon dinner - use the complimentary honeymoon benefit if it exists for the booked Coral rate/package.

Dani's gluten-free needs should be noted on the reservation and repeated to restaurant hosts. Suggested simple wording at each meal:

One guest requires gluten-free food. Please have the chef identify safe options and note the allergy for the kitchen.

16. Resort activities that fit Tucker and Dani

- Tennis.
- Pickleball.
- Paddleboarding.
- Kayaking.
- Snorkeling gear.
- Sailing / water sports if weather permits.
- Fitness center.
- Yoga.
- Beach walks.
- Pool and private-pool time.
- Spa / hydrotherapy.

The trip should not be over-scheduled. One major excursion plus resort activities is the preferred balance.

17. Working total budget - Junior Swim-Up version

A working estimate created in the chat used:

- Coral Junior Swim-Up target: about \$2,630.
- JetBlue flights for two: about \$970-\$1,046.
- One shared checked bag: about \$90.
- Xenotes discounted working total: about \$255.
- FLL parking: about \$120.
- Mexico local / visitor tax reserve: about \$50.
- Tips: about \$200.
- Resort meals, alcohol, coffee, minibar, room service: included.
- CUN-resort private transfers: \$0 if included with qualifying direct booking.

Estimated all-cash total:

- About \$4,315-\$4,391.

With Amex points applied at the working 1-cent-per-point flight redemption assumption:

- 50K points: about \$3,815-\$3,891 cash.
- 100K points: about \$3,315-\$3,391 cash.

18. Working total budget - Rooftop private-pool version

A working package estimate used a room target around \$2,720 for modeling. Actual live pricing must be checked.

Estimated total:

- All cash: about \$4,405-\$4,481.
- With 50K Amex points: about \$3,905-\$3,981 cash.
- With 75K points: about \$3,655-\$3,731 cash.
- With 100K points: about \$3,405-\$3,481 cash.

This became the preferred value target because it keeps the trip close to the original \$2K-\$4K cash goal while upgrading the room to something that feels more honeymoon-specific.

19. Four nights vs five nights

Four nights at Coral, Oct. 17-21, was estimated around \$1,985 at the base-rate level.

Five nights, Oct. 17-22, was estimated around \$2,484.

Incremental hotel cost: about \$500.

The conclusion in the chat was to keep five nights because:

- Saturday becomes the travel / arrival day.
- Monday is a major excursion day.
- Five nights preserves several full resort days.
- The couple gets a proper final honeymoon day on Wednesday.
- The extra hotel cost was about \$500 rather than a dramatic jump.

20. Spa strategy

An optional couples spa treatment was discussed.

Prior research showed:

- Coral may offer a pre-arrival discount on selected spa treatments.
- One researched 100-minute treatment was around \$293 per person instead of \$390, or roughly \$586 for two.

Budget decision:

- Do not automatically buy the spa package.
- Prioritize the better honeymoon room first.
- If Excellence Club includes hydrotherapy, use that benefit.
- Add couples treatment only if the package remains comfortably within budget.

21. Photography strategy

A short professional resort photo session around sunset was recommended for the final full day.

Reason: This is a honeymoon-specific expense that creates a long-term keepsake and may qualify for a honeymoon-package discount.

Working approach:

- Ask the resort what photo packages cost.
- Ask whether the honeymoon package includes or discounts photography.
- Keep the session short, around 30-45 minutes, unless the package value is compelling.

22. Tips and incidental budget

Working tips reserve: about \$200.

Potential additional costs to confirm:

- Visitor / tourism taxes not included in a package.
- Resort environmental fee if applicable.
- Checked baggage.
- Airport parking.
- Spa.
- Photography.
- Optional premium wine or special private dining if not part of the all-inclusive plan.
- Optional second excursion.

23. Booking order

Recommended sequence:

1. Confirm Friday Oct. 16 courthouse wedding plan and obtain any marriage-license paperwork needed before that date.
2. Search Excellence Coral Playa Mujeres direct for Oct. 17-22, two adults.
3. Join / sign in to The Excellence Collection Rewards.
4. Compare direct Rewards pricing for Junior Swim-Up and Two-Story Rooftop Terrace with Private Pool.
5. If rooftop is <= about \$2,850 total for five nights, favor it. If not, favor Junior Swim-Up <= about \$2,700.
6. Add the honeymoon and gluten-free request to the reservation.
7. Book FLL-CUN nonstop for Saturday Oct. 17. Prefer the earlier nonstop if the schedule remains around 10:07 AM.
8. Book CUN-FLL nonstop for Thursday Oct. 22. Prefer the later flight around 2:01 PM if the schedule remains available.
9. Compare JetBlue cash price with Amex Travel Pay With Points before transferring any Membership Rewards.
10. After flights are booked, register the CUN arrival/departure information for the resort's private transfer if the direct-booking benefit applies.
11. Book Xenotes for Monday Oct. 19.
12. Notify Xcaret in advance about Dani's gluten-free meal requirement.
13. Verify the honeymoon-package documentation requirement and bring the needed marriage certificate/certified copy.
14. On arrival, confirm restaurant reservation requirements, romantic dinner, spa/hydrotherapy, and photo options.

24. Research links referenced in the chat

These links were used or referenced during planning. They should be treated as starting points and rechecked for current availability.

25. What Claude should verify fresh

When this file is uploaded into Claude, ask it to recheck the following before you pay for anything:

- Exact direct Excellence Coral rate for Oct. 17-22, 2026 for two adults.
- Exact five-night total for Junior Swim-Up Suite Pool View.
- Exact five-night total for Two-Story Rooftop Terrace Suite with Private Pool.
- Exact five-night total for any honeymoon or Excellence Club private-pool category that appears under \$3,200.
- Whether the current official 40% promotion applies to these exact dates / room categories.
- Whether direct booking still includes private CUN round-trip transfer.
- Cancellation policy and deposit due date.
- Exact JetBlue nonstop schedule FLL-CUN on Oct. 17.
- Exact JetBlue nonstop schedule CUN-FLL on Oct. 22.

- Fare class, bags, seat-selection fees, and total airfare for two.
- Exact Amex Travel price for those same flights and points required.
- Current Amex Membership Rewards transfer bonuses that could improve the flight redemption.
- Exact Xenotes price for Oct. 19 and current pickup policy from Excellence Coral.
- Gluten-free meal process for Xenotes.
- Coral's 2026 honeymoon-package eligibility and exact marriage-certificate requirement.
- Coral restaurant list, which restaurants need reservations, and the best gluten-free dinner sequence.
- Spa pricing and whether any honeymoon / direct-booking discount applies.
- Photography package pricing.
- Any required Quintana Roo Visitax / local environmental fees.

26. Decision log / chronological chat summary

This section preserves how the plan evolved so another AI can continue without asking Tucker to repeat decisions.

User request 1

Tucker asked for a tropical five-star honeymoon for himself and Dani around Friday Oct. 16 or Saturday morning, for 5 days / 4 nights, budget roughly \$2K-\$4K, warm resort destination, possible all-inclusive, adventures, excursions, beaches, pools, great food, gluten-free options, coffee, possible tennis courts, and a memorable honeymoon. Airports: PBI preferred, FLL acceptable.

Initial response / shortlist

Four main options were assembled: Excellence Playa Mujeres, Secrets Cap Cana, Aruba Renaissance, and ATELIER Playa Mujeres. Excellence Playa Mujeres was the strongest all-around fit because of adults-only all-inclusive structure, beach/pools, tennis, strong gluten-free feedback, short South Florida flight, and Xenotes access.

User chose the first option

Tucker said to go with Excellence Playa Mujeres and asked to compare date / hotel / flight pricing and how Amex points could change the trip.

Date comparison

Oct. 16-20 and Oct. 17-21 were compared. Base hotel pricing looked nearly identical. FLL nonstop schedules were better than PBI, while PBI generally required a connection. Swim-up and rooftop room categories were identified as honeymoon-worthy upgrades.

First Class discussion

Tucker then asked to price First Class using Amex points. Miami American First Class was researched because FLL JetBlue did not have Mint on the route. A Friday 2:30 PM MIA-CUN nonstop was a strong schedule match for the wedding morning, and British Airways Avios was discussed as a possible partner-

award path for American premium inventory. This became obsolete when Tucker later said First Class was unnecessary.

User clarified wedding-day logistics

Tucker explained they would be getting married Friday morning in Delray at the courthouse and initially wanted departure around 1-3 PM. A Friday afternoon Miami departure was built around that timing because FLL's nonstops were too early.

User changed departure to Saturday morning

Tucker asked if they could leave early Saturday instead. The plan changed to Saturday Oct. 17 departure from FLL on a nonstop JetBlue flight and five nights through Thursday Oct. 22. This removed wedding-day airport stress and avoided the Miami drive.

User asked about Excellence Coral Playa Mujeres

Tucker asked whether Excellence Coral Playa Mujeres was better/nicer and whether the same adventures were possible. Coral was identified as the newer, more contemporary resort, with newer room design, extensive dining, private-pool categories, and the same Playa Mujeres excursion access.

User requested full pricing comparison

Tucker asked for all numbers to be run. Current base-rate research showed Coral around \$2,484 for five nights and original Excellence Playa Mujeres around \$2,537, so Coral was slightly cheaper in the researched snapshot. The working recommendation became Coral.

Current final working plan

- Friday Oct. 16: courthouse wedding in Delray, stay local that night.
- Saturday Oct. 17: early FLL-CUN nonstop.
- Saturday Oct. 17 through Thursday Oct. 22: five nights at Excellence Coral Playa Mujeres.
- Preferred room: Two-Story Rooftop Terrace Suite with Private Pool if $\leq$ about \$2,850 total; otherwise Junior Swim-Up $\leq$ about \$2,700.
- Use Amex points primarily to reduce cash airfare rather than transfer automatically to JetBlue.
- Monday Oct. 19: Xenotes adventure.
- Remaining days: resort, beach, pool, tennis, water sports, romantic dinners, possible spa, sunset photo session.
- Thursday Oct. 22: later nonstop CUN-FLL flight if available.

27. Ready-to-paste prompt for Claude

Use this after uploading the file:

Use the attached honeymoon planning transfer packet as the source of truth for Tucker and Dani's current preferences and decisions. Do not make me repeat details that are already in the file. First, re-verify all time-sensitive prices, room availability, flight schedules, promotions, taxes, and excursion availability for Oct. 17-22, 2026. Then give me a current purchase-ready package with exact total cost for two, direct booking links, the best Excellence Coral room under our budget, nonstop FLL-CUN flights, the best Amex Membership Rewards payment strategy, Xenotes booking details, honeymoon-package steps, gluten-free notes, and a final day-by-day itinerary. Keep the cash budget around \$2,000-\$4,000 where possible, using Amex points intelligently. Prioritize five nights, a memorable room, nonstop flights, one major adventure day, and enough open resort time. If any prior price in the packet is stale, replace it with the current verified price and show the difference.
